

# flex series

## 20-640 kVA

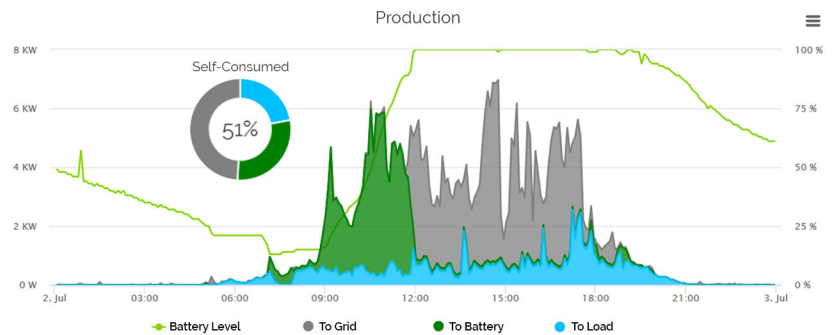

### Modular Storage & Online UPS System

- AC coupled storage system for existing PV installations
- Solar powered UPS storage
- Peak load shaving
- Maximum self consumption
- Power modules per 20kVA/kW
- Hot-swap replacement and extension of modules
- High voltage battery 408 VDC
- LiFePO, Carbon, Lead-acid, and NiCd storage compatible
- Pure sine wave output
- Active power filter
- Voltage & frequency adjustment

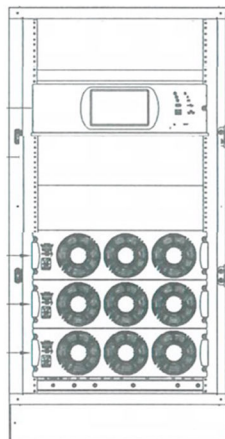

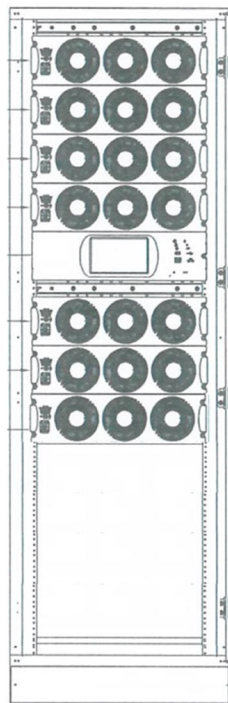

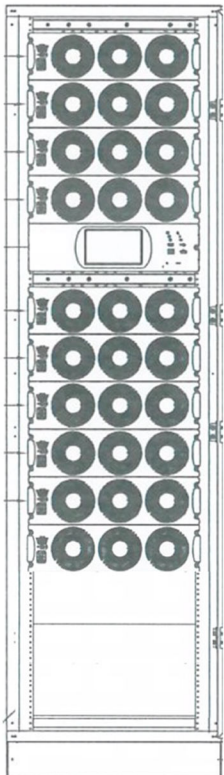

### "liveX" Energy Flow Management

Controlling, monitoring and intergration in intelligent networks by open source API with HTTP protocol in JSON format.

Designed & assembled in Luxembourg, Belgium and Germany

SOLAR HYBRID UPS

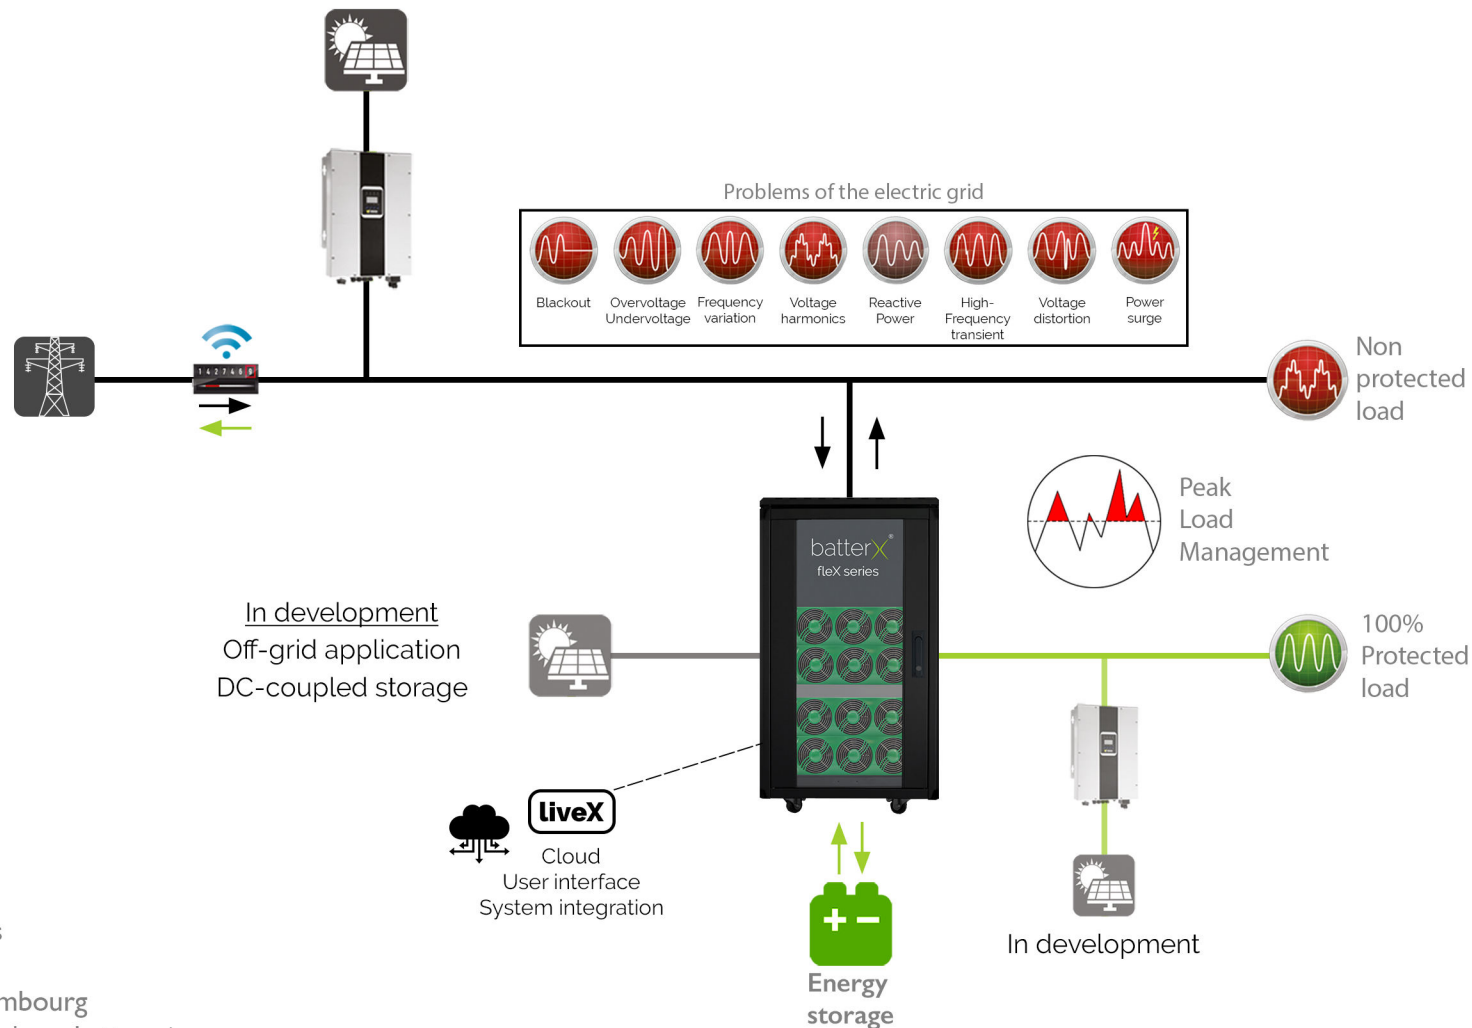

Flexible cabinet solutions on demand

Power Module 20 kVA/KW

# flex series 20-640 kVA

## Applications

SOLAR HYBRID UPS
